DEMAND THE BEST
FROM YOUR
TRANSCRIPTION SERVICE

ACUSIS®

YOUR CURRENT
TRANSCRIPTION
SERVICE

CAN YOU PROVIDE A "TOTAL SOLUTION" FOR MY ORGANIZATION?

We provide an end-to-end transcription solution that can be customized for every hospital, clinic, or private medical practice. No matter how large the job, Acusis® can get things done right. Our business model is designed to always maintain excess capacity, so there's never a compromise in service.

WILL OUR EXISTING SYSTEM INTERFACE WITH YOUR SOFTWARE?

Our software integrates seamlessly with most health information systems, so there's no need for extensive hardware purchases on your part (ASP model).

CAN OUR PHYSICIANS USE THE SAME DICTATION
METHODS THEY DO NOW?

Physicians can continue using whatever method they are comfortable with, whether it be telephonic, digital recorders, PDA's or PC's.

CAN YOU PROVIDE REAL-TIME ACCESS TO FILES?

Our AcuSuite® proprietary software utilizes a program called eTranscribe, which allows you to track, edit or listen to your files after they've been submitted for transcription.

DO YOU USE YOUR OWN TRANSCRIPTIONISTS?

Yes. All of our transcriptionists are Acusis associates, selected and hired by us.

DO YOU OFFER ON-GOING TECHNICAL SUPPORT?

Customer and technical support is available 24 hours a day, 365 days a year.

DO YOU CONDUCT A SITE ASSESSMENT?

We perform a thorough site assessment to ensure that we are not only addressing all of your needs, but doing it in the most cost-effective manner.

ARE YOU HIPAA COMPLIANT?

Every phase of our process is HIPAA compliant, from dictation to transcription and delivery.

DO YOU HAVE A NEW CUSTOMER TRANSITION PROCESS?

Our Implementation Director will help you set up your system, and you'll receive on-going assistance from our customer service/technical support staff.

CAN YOUR COMPANY PROVIDE SIGNIFICANT COST SAVINGS?

We are a global company specializing in transcription only, and we utilize our own technology and transcriptionists. Because of this, we typically save customers 20-30% over their current costs.
