

AcuMobile

Dictate anywhere with AcuMobile, the fast and secure iPhone® application.

Secure

- 256-bit encryption for all communication
- iPhone closed architecture limits access to schedules or voice files to AcuMobile only
- Follows AcuSuite 3.0 password complexity and expiration rules
- Automatic application log off settings
- Option to remove voice file after file is sent successfully

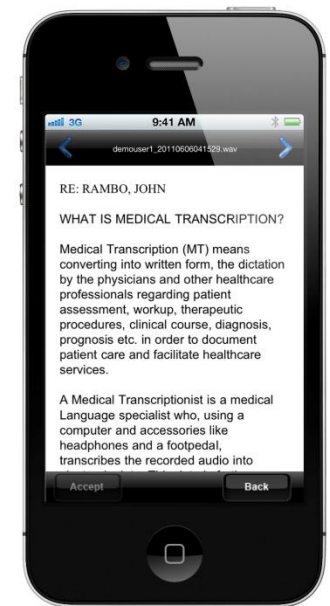

Schedule

- View or search through your patient schedule with compatible demographic feeds
- Ability to add patients to your schedule from your phone
- One-touch dictation directly from your patient schedule
- A visual confirmation will be shown when the dictation is complete

Dictate

- Dictate on your iPhone eliminating the need for additional equipment
- Save dictations as a draft for later editing
- Option to mark urgent files STAT for quick report turnaround
- Audio is sent immediately decreasing turnaround time

Review

- Review completed reports directly from your iPhone
- Electronically sign reports using the Accept feature
